Lasting Choices...

With the **DURANAR®** Coating Systems

Choose premium performance and lasting color from the wide array of Duranar high performance finishes. Whatever your application, you'll get good looking, long lasting results. All Duranar Coatings contain fluoropolymer resin—chemically inert, to protect your building from the environmental stresses around it. Duranar finishes resist dirt pickup, chalking, fading, and UV degradation. Exposed to salt spray, Duranar Coatings will not whiten or pit, and will not degrade when exposed to the alkali on a construction site. Mineral acids and detergents will not stain Duranar finishes. Adhesion, film integrity and flexibility are excellent: the Duranar film resists chipping, cracking, crazing, erosion, abrasion, and impact.

All Duranar Coating systems meet the requirements of AAMA 2605 "Voluntary

Specification, Performance Requirements and Test Procedures for Superior Performing Organic Coatings on Aluminum Extrusions and Panels."

Those are the reasons why Duranar Coatings protect more square feet of architectural aluminum than any other fluoropolymer formulation. Applicable to any properly pretreated aluminum extrusions or panels, the finishes are spray-applied by applicators authorized by PPG and observing stringent quality control procedures. A list of authorized applicators is available from PPG on request. For price information and applied costs, contact an authorized Duranar applicator. Accurate pricing depends on color, area to be coated, mass of extrusion, and type of application equipment.

The **DURANAR** Systems Include:

Duranar 2-Coat System: PPG primer and non-exotic Duranar color coat; for example, UC40577 Black. **Add the XL Advantage:** for additional protection against abrasion and atmospheric contaminants, the clear "XL" fluoropolymer topcoat may be applied as an option over any Duranar color.

Duranar Exotic 2-Coat System: PPG primer, Duranar exotic color coat; for example, UC51733 Hartford Green. **Note that all exotic colors are premium-priced because of pigmentation. Certain exotic colors may also require a barrier coat and/or the XL clear coat.**

Duranar Sunstorm 2-Coat System: PPG primer, mica-containing Duranar color coat; for example, UC70092F Silversmith. **Note that some lighter Sunstorm colors may require the use of a barrier coat (a third coat).**

Duranar XL 3-Coat System: PPG primer, Duranar non-exotic color coat, and clear Duranar XL topcoat—mandatory for all metallics to provide complete chemical resistance against acids and alkaline materials; for example, UC51131 XL Silver.

Duranar XL Exotic 3-Coat System: PPG primer, Duranar exotic color coat, and clear Duranar XL topcoat; for example, UC40597 XL Banner Red. XL is mandatory for all red color coats with cadmium type pigmentations.

Duranar XL Specialty 4-Coat System: PPG primer, Duranar barrier coat, Duranar color coat containing metallic flakes, and clear Duranar XL topcoat; for example, UC52113 XL/BC Bright Copper.

DURANAR® Coatings (2-COAT SYSTEM)

UC43350 Bone White

UC51825 Fashion Gray

UC45392 Sandstone

UC54434 Aged Copper

UC54983 Colonial White

UC43352 Colonial Gray

UC54137 Beige

UC56785 Rosewood

UC54412 Ivory

UC54271 Charcoal Gray

UC45082 Sage Brown

UC56729 Coral

UC45074 Seawolf

UC40577 Black

UC43347 Statuary Bronze

UC43355 Brick Red

The **DURANAR** color chips provided in our color guide are as close as possible to the **DURANAR** paint color, however color chip reproduction has limitations. Panels of the actual **DURANAR** finish are available upon request. The color guide represents the range of available colors, but custom color matches are available within the limits of durable color pigments.

DURANAR Exotic Coatings (2-COAT SYSTEM)

UC43359 Colonial Blue

UC50014 Interstate Blue

UC51524 Interstate Green

UC52006 River Rouge Red

UC51130 Blue

UC52064 Arabian Blue

UC52026 Dark Green

UC52003 Boysenberry

UC51704 Night Horizon Blue

UC52128 Cherokee Blue

UC51733 Hartford Green

UC50927 Commerce Brown

Exotic Colors: These colors carry a surcharge due to their exotic pigmentation; therefore, premium pricing is applicable. Certain exotic colors may also require a barrier coat and/or the XL clear coat.

DURANAR XL Coatings (3-COAT SYSTEM)

UC51131 XL Silver

UC51568 XL Champagne Gold

UC51227 XL Light Bronze #311

UC51618 XL Rosalind Rose

UC50958 XL Silver Gray

UC52408 XL Copper Metallic

UC51515 XL Medium Bronze #312

UC52580 XL Metallic Redwood

UC51713 XL Pewter

UC51595 XL Medium Gray

UC51602 XL Dark Bronze #313

UC51847 XL Canyon Red

The appearance of **DURANAR** finishes may vary upon factory application due to differences in spray equipment, film thickness and baking conditions, which are beyond our control. Therefore, PPG strongly recommends final color approval of actual production line samples, not lab panels or color chips. Pearlescent and metallic flake colors are particularly application-dependent and must be verified with a production line sample including the **DURANAR XL** clear topcoat, as specified by PPG.

DURANAR Sunstorm™ Coatings (2-COAT SYSTEM)

UC70092F Silversmith

UC70202F Champagne Bronze

UC70484F Champagne Rose

UC70372F Jade

UC70214F Gray Velvet

UC70115F Copper

UC70480F Metallic Brick

UC70373F Blue

UC70318F Bronze

UC70222F Gold Watch

DURANAR XL Exotic Coatings (3-COAT SYSTEM)

UC52059 XL Seafoam Green

UC51594 XL Light Blue

UC52179 XL Bronze

UC45282 XL Red

UC52274 XL Medium Green Metallic

UC52002 XL Midnight Blue Metallic

UC59072 XL Rose Metallic

UC51703 XL Carnival Red

UC52188 XL Dark Green Metallic

UC52061 XL Concord Blue

UC52008 XL Dark Claret

UC40597 XL Banner Red

Exotic Colors: These colors carry a surcharge due to their exotic pigmentation; therefore, premium pricing is applicable. Certain exotic colors may also require a barrier coat and/or the XL clear coat.

Limits for acceptable production variations are to be established between the approval source and applicator. For price information and applied costs, contact a PPG-authorized **DURANAR** applicator. Accurate pricing depends on the specific color, area to be coated, production volume, mass of aluminum parts and application process.

DURANAR XL Specialty Coatings (4-COAT SYSTEM)

UC52138 XL/BC Gold

UC52187 XL/BC Gold Watch

UC52113 XL/BC Bright Copper

UC55028 XL/BC Bright Silver

Corporate Quality Policy

PPG will provide products and services to our customers that fully meet their requirements, on time, every time. We are dedicated to constant improvements in every area of our business and to doing our job right the first time, so as to achieve total customer satisfaction.
