

ELITE SERIES

3850

DC Motor Belt Drive
Garage Door Opener with

WITH EVERCHARGE™ BATTERY BACKUP BUILT IN.

For a higher level of security and uninterrupted convenience, we offer a garage door opener that continues working, even when the power goes out.

The EverCharge™ Battery Backup System will operate the garage door opener for 40 cycles within a 24-hour period and recharges automatically when the power comes back on.

12V DC battery fits neatly inside the opener

Plus, it's the only opener with our patented EverCharge™ Battery Backup System built right in.

Ultra-quiet DC belt drive system. Variable speed soft start/soft stop. Audible signal tells you the power is out and EverCharge™ battery is in use.

- 200-watt lighting
- Meets all UL325 requirements
- Lifetime motor and belt warranty

LiftMaster® 3850, the only professionally installed opener with fully integrated EverCharge™ Battery Backup.

At Chamberlain, safety is a major part of our mission. It's our commitment to you and, quite simply, the way we produce products every day. Our LiftMaster® products are designed to move the largest door in your home, safely, securely and by always putting safety first.

ACCESSORIES INCLUDED

Premium Remote

Innovative design automatically streams brilliant blue lights from the push-button windows when you pass your hand over the remote.

Smart Control Panel™

Displays time, temperature and diagnostic messages in 3 languages. A motion sensor turns opener lights on "hands-free" and a convenient "learn" button easily programs remotes.

ELITE SERIES™

UNSURPASSED SAFETY AND SECURITY

All LiftMaster® garage door openers are manufactured with the highest level of safety and monitoring systems to ensure safe operation.

- The Protector System® safety sensors reverse the door automatically if the infrared beam is broken, before contact is made.
- Patented technology detects when a door spring breaks and triggers the motor to reverse the door to the full open position.
- Sensing technology will stop the door from closing if contact is made with a person or object.
- Security+® Rolling Code Technology assures a new code is sent every time the remote is used.
- Patented PosiLock® system ensures the door remains securely locked when it is closed.
- Opener light turns on automatically when The Protector System® safety infrared beam is broken.

ENHANCE YOUR LIFESTYLE WITH OPTIONAL ACCESSORIES

know for sure the door is closed

Lets you know whether the garage door is open or closed from any room in the house. A flashing red light shows the door is open; a glowing green light indicates the door is closed.

GARAGE DOOR MONITOR (915LM)

enter without a key

Open your garage door without using a remote control and close with just the push of a button. Also can be programmed with a temporary entry code for friends and service people.

WIRELESS KEYLESS ENTRY with SECURITY+® (377LM)

access on the go

Operates up to 3 garage doors. Turns garage door opener lights on and off. Fits on keychain or in a pocket or purse.

MINI 3-BUTTON REMOTE CONTROL with SECURITY+® (370LM)

put control where you want it

For people who want a second control in their garages. A light control button turns garage door opener lights on and off. Auxiliary button can be programmed to open and close a second garage door.

WIRELESS CONTROL PANEL (378LM)

park perfectly every time

The high-tech solution that helps you park perfectly in your garage! As you pull into your garage the laser is activated and projected onto the dashboard, making it easy to park in the same spot every time.

LASER GARAGE PARKING ASSIST (975LM)
